THE MANAGING DIRECTOR

Object: invitation to a Seminar

Dear Members APPN Members,

The **ARMP du Sénégal**, in collaboration with **Université Gaston Berger de St-Louis** and **Le Réseau Contrats Publics dans la Globalisation Juridique de Paris** have decided to organize an international seminar on the problems encountered as far as modernization of public procurement is concerned in Africa. This activity is to be organized periodically and partnership is open to any other organization interested in it.

This year 2021 seminar is a two-day one from December 2, 2021 to December 3, 2021 and will take place respectively in Hôtel Terrou-bi in Dakar and at Université Gaston Berger (UGB) in Sain-Louis.

The aim of such meetings is to gather academics, representatives of public administration, private sectors, civil society, technical and financial partners and public procurement practitioners to discuss, exchange and propose innovative and efficient solutions to public procurement optimization.

The event is both in person and online by webinar.

Two flagship activities are on the agenda this year: an international conference and a scientific seminar, which will gather panelists, seasoned experts in different domains of public procurement and public-private partnerships

Université Gaston Berger de ST LOUIS	Autorité de Regulation des Marchés Publics	Réseau Contrats Publics dans la Globalisation Juridique
		

I am inviting and strongly encouraging the participation, either in person or online, of all public procurement specialists, the APPN members for the sharing of their analyses and experiences with the panelists of the various sessions on the agenda.

Kind regards

Saër NIANG

To the APPN Members
